

## Arrival Directions: 60 Belvidere (9/6 & 9/7)

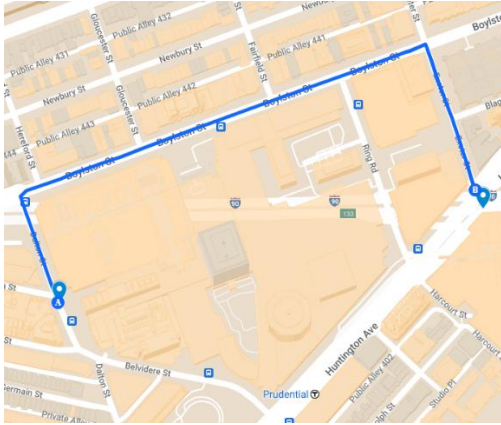

**Prior to arrival all students will need to print their Cruise Ship Unloading Pass found on Housing Online.**

Unloading Location: **60 Belvidere South Tower Loading Dock** → Parking Location: **Copley Place Garage** → Check-in Location: **60 Belvidere Lobby**

1. If you are arriving by car to campus you will first need to proceed to your Unloading Location at the 60 Belvidere South Tower Loading Dock. Please use [this link](#) as a location for driving directions to the start of the queue. If using a GPS or navigation system, note that **all drivers must approach the unloading location progressing westbound on Belvidere St from Huntington Avenue.**
2. **Your unloading location and queue will proceed through an underground parking garage with height clearance of 6'8". Only passenger vehicles of average width and under the height clearance will be able to proceed through the queue as outlined here, which also excludes vehicles with rooftop storage exceeding the height limitations.** Those students arriving by any ride-hailing service should unload in the cab stand on Belvidere St immediately beyond the entry to the unloading queue instead of entering the queue.

3. At the 60 Belvidere South Tower Loading Dock, you will need to **present your printed Cruise Ship Unloading Pass** to the move support staff who will unload your belongings from the car into one or two moving hampers. Move support will deliver your hamper(s) of belongings to your assigned room listed on your Cruise Ship Unloading Pass. Once your belongings are removed from your hamper(s) in your room, move support will bring your hamper(s) back to the unloading station.
4. Should you require a place to park after unloading, the driver of your vehicle will be able to park at the Copley Place Garage for single day parking with a single use parking validation code provided at check in. To enter the Copley Place Garage, the driver can take a ticket at entry, and will need to scan both the validated code and ticket at exit. **There will be no oversized, over height (over 6'8" including roof racks/storage), or overnight parking.**

**FOLLOW THIS ROUTE** from the unloading queue to the garage:

- Turn Right on Dalton St
- At the Light, turn Right onto Boylston St
- At the 4<sup>th</sup> Light, turn Right onto Exeter St
- At the Light, cross Huntington Ave to enter the Copley Place Garage

Take a ticket at entry. Use the validated bar code provided at student check-in for exit. Validated bar code is single use.

5. While your vehicle is being parked, you can proceed to your check-in location, 60 Belvidere Lobby, to check in with Residential Life Staff.

Please note, other parking garages are located nearby, including the Prudential Center Garage. If you wish to park in the Prudential Center Garage, you will need to completely exit that garage as part of the move-in queue and reenter. To maintain traffic flow at the exit, you will not be permitted to make a U-turn to reenter the Prudential Center Garage on Dalton St.

If you choose a parking location other than the Copley Place Garage, or if you utilize the Copley Garage overnight or more than one time, you will be responsible for those parking fees.
